Re: Capital Call

Investor: Thirdwave Corporation
Capital Call Amount: \$777,228
Capital Call Due Date: **May 14, 2024**

Dear Investor:

Tenth Close Capital Call

Hamilton Lane Secondary Fund VI held its tenth closing and has now secured capital commitments totaling \$4,397,762,971. Subsequently admitted Partners are required to fund their pro rata share of any capital contributions made by the previously admitted Partners (“Capital Contributions”). They are also required to pay interest to the previously admitted Partners for the previous Capital Contributions. The required interest payments are computed at an annualized rate equal to 8% per annum prorated based on the actual number of days elapsed in each period over total days in the calendar year. It is important to note that this interest is not considered to be income to the fund but is considered to be paid directly to previously admitted Partners by the new Partners.

Your proportionate share of the tenth close capital call and interest payment is set forth on the following pages. The amount of your capital call including the “true-up” is set forth on the following pages. The capital call will be used to fund drawdown requests from underlying investments.

Please be sure to include the amount for any wire fees that your financial institution may charge in your wire. Please wire your capital call, in the amount of **\$777,228**, on or before **Tuesday, May 14, 2024** in accordance with the following wiring instructions:
